

28/8/06

To whom it may concern,

I write this letter as a letter of support and reference for Mr Peter Pope of Maritime Solutions.

Over recent years, I have had many first hand experiences with Marine Surveyors, but none of the high standard of Peter Pope.

I found Peter to be highly knowledgeable of his craft, very efficient and thorough, and he has highly developed communication and interpersonal skills. Peter undertook a recent survey of my current vessel, and his observations and comments have been highly accurate and well informed.

I would highly recommend Peter to any family, friend or associate who requires a Marine Surveyor of the highest Calibre.

Yours faithfully,

Cooper Born
